#### Description

This OS unit is about recognizing the boundaries of the role and responsibilities, practice code of conduct and working within the level of competence in accordance with legislation, protocols and guidelines set up by the healthcare provider.

#### Elements and Performance Criteria

##### *Maintain professional behavior*

To be competent, the user/individual on the job must be able to:

- PC1.** adhere to legislation, protocols and guidelines relevant to ones role and field of practice
- PC2.** work within organizational systems and requirements as appropriate to ones role
- PC3.** recognize the boundary of ones role and responsibility and seek supervision when situations are beyond ones competence and authority
- PC4.** maintain competence within ones role and field of practice
- PC5.** maintain personal hygiene and contribute actively to the healthcare ecosystem

##### *Acting within the limit of ones competence and authority*

To be competent, the user/individual on the job must be able to:

- PC6.** use relevant research based protocols and guidelines as evidence to inform ones practice
- PC7.** promote and demonstrate good practice as an individual and as a team member at all times
- PC8.** identify and manage potential and actual risks to the quality and safety of practice
- PC9.** evaluate and reflect on the quality of ones work and make continuing improvements
- PC10.** use relevant research-based protocols and guidelines as evidence to inform ones practice

##### *Following the code of conduct and demonstrating best practices in the field*

To be competent, the user/individual on the job must be able to:

- PC11.** recognize the boundary of ones role and responsibility and seek supervision when situations are beyond ones competence and authority
- PC12.** promote and demonstrate good practice as an individual and as a team member at all times
- PC13.** identify and manage potential and actual risks to the quality and safety of practice
- PC14.** maintain personal hygiene and contribute actively to the healthcare ecosystem
- PC15.** maintain a practice environment that is conducive to the provision of medico-legal healthcare

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies & procedures followed in the organization
- KU2.** the medical procedures and functioning of required medical equipment
- KU3.** role and importance of assisting other healthcare providers in delivering care

## Qualification Pack

- KU4.** how to engage and interact with other providers in order to deliver quality and maintain continued care
- KU5.** personal hygiene measures and handling techniques
- KU6.** the limitations and scope of the role and responsibilities of self and others
- KU7.** the importance of working within the limits of ones competence and authority
- KU8.** the importance of personally promoting and demonstrating good practice
- KU9.** The detrimental effects of non-compliance
- KU10.** the importance of intercommunication skills
- KU11.** the legislation, protocols and guidelines affecting ones work
- KU12.** the organizational systems and requirements relevant to ones role
- KU13.** the sources of information and literature to maintain a constant access to upcoming research and changes in the field
- KU14.** the difference between direct and indirect supervision and autonomous practice, and which combination is most applicable in different circumstances
- KU15.** the importance of individual or team compliance with legislation, protocols, and guidelines and organizational systems and requirements
- KU16.** how to report and minimize risks
- KU17.** the principle of meeting the organizations needs, and how this should enable one to recognize ones own limitations and when one should seek support from others
- KU18.** the processes by which improvements to protocols/guidelines and organizational systems/requirements should be reported
- KU19.** the procedure for accessing training, learning and development needs for oneself and/or others within ones organization
- KU20.** the actions that can be taken to ensure a current, clear and accurate understanding of roles and responsibilities is maintained, and how this affects the way one work as an individual or part of a team
- KU21.** the risks to quality and safety arising from:
  - o Working outside the boundaries of competence and authority
  - o Not keeping up to date with best practice
  - o Poor communication
  - o Insufficient support
  - o Lack of resources
- KU22.** the importance of personal hygiene

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document reports, task lists, and schedules
- GS2.** prepare status and progress reports
- GS3.** record daily activities
- GS4.** update other co-workers
- GS5.** read about changes in legislations and organizational policies
- GS6.** keep updated with the latest knowledge
- GS7.** discuss task lists, schedules, and work-loads with co-workers
- GS8.** give clear instructions to patients and co-workers

## Qualification Pack

- GS9.** keep patient informed about progress
- GS10.** avoid using jargon, slang or acronyms when communicating with a patient
- GS11.** make decisions pertaining to the concerned area of work in relation to job role
- GS12.** act decisively by balancing protocols and work at hand
- GS13.** communicate effectively with patients and their family, physicians, and other members of the health care team
- GS14.** be responsive and listen empathetically to establish rapport in a way that promotes openness on issues of concern
- GS15.** be sensitive to potential cultural differences
- GS16.** maintain patient confidentiality
- GS17.** respect the rights of the patient(s)

### HSS/N9617: Maintain a safe, healthy and secure working environment

#### Description

This OS unit is about monitoring the working environment and ensuring a safe, healthy, secure and effective working conditions

#### Elements and Performance Criteria

##### *Complying the health, safety and security requirements and procedures for work place*

To be competent, the user/individual on the job must be able to:

- PC1.** identify individual responsibilities in relation to maintaining workplace health safety and security requirements
- PC2.** comply with health, safety and security procedures for the workplace
- PC3.** comply with health, safety and security procedures and protocols forenvironmental safety

##### *Handling hazardous situation*

To be competent, the user/individual on the job must be able to:

- PC4.** identify potential hazards and breaches of safe work practices
- PC5.** identify and interpret various hospital codes for emergency situations
- PC6.** correct any hazards that individual can deal with safely, competently and within the limits of authority
- PC7.** provide basic life support (BLS) and first aid in hazardous situations, whenever applicable
- PC8.** follow the organizations emergency procedures promptly, calmly, and efficiently
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** complete any health and safety records legibly and accurately

##### *Reporting any hazardous situation*

To be competent, the user/individual on the job must be able to:

- PC11.** report any identified breaches in health, safety, and security procedures to the designated person
- PC12.** promptly and accurately report the hazards that individual is not allowed to deal with to the relevant person and warn other people who may get affected

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of health, safety, and security in the workplace
- KU2.** the basic requirements of the health and safety and other legislations and regulations that apply to the workplace
- KU3.** the person(s) responsible for maintaining healthy, safe, and secure workplace
- KU4.** the relevant up-to-date information on health, safety, and security that applies to the workplace
- KU5.** the responsibilities of individual to maintain safe, healthy and secure workplace

## Qualification Pack

- KU6.** how to report the hazard
- KU7.** requirements of health, safety and security in workplace
- KU8.** how to create safety records and maintaining them
- KU9.** the importance of being alert to health, safety, and security hazards in the work environment
- KU10.** the common health, safety, and security hazards that affect people working in an administrative role
- KU11.** how to identify health, safety, and security hazards
- KU12.** the importance of warning others about hazards and how to do so until the hazard is dealt with

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** report and record incidents
- GS2.** read and understand company policies and procedures
- GS3.** clearly report hazards and incidents with the appropriate level of urgency
- GS4.** make decisions pertaining to the area of work
- GS5.** plan for safety of the work environment
- GS6.** communicate effectively with patients and their family, physicians, and other members of the health care team
- GS7.** be capable of being responsive, listen empathetically to establish rapport in away that promotes openness on issues of concern
- GS8.** identify hazards, evaluate possible solutions and suggest effective solutions
- GS9.** analyze the seriousness of hazards
- GS10.** analyze, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

# HSS/N9618: Follow infection control policies & procedures including biomedical waste disposal protocols

## Description

This OS unit is about the safe handling and management of health care waste and following infection control policies

## Elements and Performance Criteria

### *Classification of the Waste Generated, Segregation of Biomedical Waste, Proper collection and storage of Waste*

To be competent, the user/individual on the job must be able to:

- PC1.** handle, package, label, store, transport and dispose of waste appropriately to minimize potential for contact with the waste and to reduce the risk to the environment from accidental release
- PC2.** store clinical or related waste in an area that is accessible only to authorized persons
- PC3.** minimize contamination of materials, equipment and instruments by aerosols and splatter

### *Complying with an effective infection control protocols*

To be competent, the user/individual on the job must be able to:

- PC4.** apply appropriate health and safety measures following appropriate personal clothing & protective equipment for infection prevention and control
- PC5.** identify infection risks and implement an appropriate response within own role and responsibility in accordance with the policies and procedures of the organization
- PC6.** follow procedures for risk control and risk containment for specific risks. Use signs when and where appropriate
- PC7.** follow protocols for care following exposure to blood or other body fluids as required
- PC8.** remove spills in accordance with the policies and procedures of the organization
- PC9.** clean and dry all work surfaces with a neutral detergent and warm water solution before and after each session or when visibly soiled
- PC10.** demarcate and maintain clean and contaminated zones in all aspects of health care work
- PC11.** confine records, materials and medicaments to a well designated clean zone
- PC12.** confine contaminated instruments and equipment to a well designated contaminated zone
- PC13.** decontaminate equipment requiring special processing in accordance with quality management systems to ensure full compliance with cleaning, disinfection and sterilization protocols
- PC14.** replace surface covers where applicable
- PC15.** maintain and store cleaning equipment
- PC16.** report and deal with spillages and contamination in accordance with current legislation and procedures

### *Maintaining personal protection and preventing the transmission of infections from person to person*

To be competent, the user/individual on the job must be able to:

- PC17.** maintain hand hygiene following hand washing procedures before and after patient contact /or after any activity likely to cause contamination

## Qualification Pack

- PC18.** cover cuts and abrasions with waterproof dressings and change as necessary
- PC19.** change protective clothing and gowns/aprons daily, more frequently if soiled and where appropriate, after each patient contact
- PC20.** perform additional precautions when standard precautions alone may not be sufficient to prevent transmission of infection

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant up-to-date information on health, safety, and security that applies to the organization
- KU2.** organizations emergency procedures and responsibilities for handling hazardous situations
- KU3.** person(s) responsible for health, safety, and security in the organization
- KU4.** good personal hygiene practice including hand care
- KU5.** importance of and how to handle, package, label, store, transport and dispose of waste appropriately to minimize potential for contact with the waste and to reduce the risk to the environment from accidental release
- KU6.** the importance to adhere to the organizational and national waste management principles and procedures
- KU7.** the hazards and risks associated with the disposal and the importance of risk assessments and how to provide these
- KU8.** the required actions and reporting procedures for any accidents, spillages and contamination involving waste
- KU9.** the requirements of the relevant external agencies involved in the transport and receipt of your waste
- KU10.** the importance of organizing, monitoring and obtaining an assessment of the impact the waste may have on the environment
- KU11.** The current national legislation, guidelines, local policies and protocols which affect work practice
- KU12.** the policies and guidance that clarify scope of practice, accountabilities and the working relationship between yourself and others
- KU13.** identification and management of infectious risks in the workplace
- KU14.** aspects of infectious diseases including opportunistic organisms & pathogens
- KU15.** basic microbiology including bacteria and bacterial spores, fungi, viruses
- KU16.** the path of disease transmission including direct contact and penetrating injuries, risk of acquisition
- KU17.** how to clean and sterile techniques
- KU18.** susceptible hosts including persons who are immune suppressed, have chronic diseases such as diabetes and the very young or very old
- KU19.** routine surface cleaning procedures at the start and end of the day, managing a blood or body fluid spill
- KU20.** sharps handling and disposal techniques

## Qualification Pack

- KU21.** effective hand hygiene including hand wash, surgical hand wash, when hands must be washed
- KU22.** good personal hygiene practice including hand care
- KU23.** how to use personal protective equipment such as: The personal clothing and protective equipment required to manage the different types of waste generated by different work activities

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** report and record incidents
- GS2.** read and understand company policies and procedures to managing biomedical waste and infection control and prevention
- GS3.** listen patiently
- GS4.** report hazards and incidents clearly with the appropriate level of urgency
- GS5.** take in to account opportunities to address waste minimization, environmental responsibility and sustainable practice issues
- GS6.** apply additional precautions when standard precautions are not sufficient
- GS7.** consistently ensure instruments used for invasive procedures are sterile at time of use (where appropriate)
- GS8.** consistently follow the procedure for washing and drying hands
- GS9.** consistently maintain clean surfaces and limit contamination
- GS10.** how to make exceptional effort to keep the environment and work place clean
- GS11.** identify hazards and suggest effective solutions to identified problems pertaining to hospital waste and related infections
- GS12.** analyze the seriousness of hazards pertaining to hospital waste and related infections
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to act
- GS14.** take into account opportunities to address waste minimization, prevent infection, environmental responsibility and sustainable practice issues

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

**Minimum Aggregate Passing % at QP Level : 70**

## Qualification Pack

**(Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

### Glossary

<b>Sector</b>	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
<b>Sub-sector</b>	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
<b>Occupation</b>	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
<b>Job role</b>	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
<b>Occupational Standards (OS)</b>	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
<b>Performance Criteria (PC)</b>	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
<b>National Occupational Standards (NOS)</b>	NOS are occupational standards which apply uniquely in the Indian context.
<b>Qualifications Pack (QP)</b>	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
<b>Unit Code</b>	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
<b>Unit Title</b>	Unit title gives a clear overall statement about what the incumbent should be able to do.
<b>Description</b>	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
<b>Scope</b>	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

## Qualification Pack

<b>Knowledge and Understanding (KU)</b>	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
<b>Organisational Context</b>	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
<b>Technical Knowledge</b>	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
<b>Core Skills/ Generic Skills (GS)</b>	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
<b>Electives</b>	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
<b>Options</b>	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
